Royal Air Force Squadrons II

Per Ardua ad Astra

The beginning of the century saw the fortress port of Spain and in August 1704 it was captured by an 3th command by Admiral Knowle. Within a few months underwent the first of the many sieges it barely successfully resist.

In 1729 Gibraltar became the safe haven of entry into Gibr from the land side while the sea approach was guarded by a number of fortifications. One of the most notable fortifications of our modern period was the 'Pressing gun carriage by Lt. G. F. Rocher R while setting in Gibraltar, in 1782.
